

ASHHAR SHAHAN

Python Full Stack Developer

Kerala 673571, India • +91 96458 99666 • ashharshahan666@gmail.com • ashharshahan.vercel.app • github.com/ashhar666

PROFESSIONAL SUMMARY

Python Full Stack Developer with 6 months of internship experience designing and deploying production-grade web applications. Proficient in Django, JavaScript, Next.js, TypeScript, HTML5, CSS3, Bootstrap, and MySQL with a strong grasp of RESTful API development, MVC architecture, and database design. Delivered real-world full-stack products including a Dockerized expense management SaaS. Seeking a junior developer role to grow and deliver real-world impact.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frameworks: Django, React.js, Bootstrap, Tailwind CSS, Framer Motion

Database: SQL, Django ORM, Database Design, CRUD Operations

Tools & Platforms: Git, GitHub, Docker, VS Code, Postman, REST APIs, Vercel, Shadcn/UI, Recharts

PROFESSIONAL EXPERIENCE

Python Full Stack Developer Intern | The Futura Labs — Kozhikode, Kerala October 2025 – March 2026

- Developed responsive full-stack web applications using Django for backend logic and HTML5, CSS3, JavaScript, and Bootstrap for frontend, ensuring cross-browser compatibility and mobile-first design.
- Designed and integrated RESTful APIs to connect frontend interfaces with backend services, streamlining data flow and improving application performance.
- Built and optimized MySQL database schemas; leveraged Django ORM for efficient data modeling, querying, and relationship management.
- Implemented user authentication, session management, and form validation features across multiple projects.
- Conducted debugging and code reviews, consistently refactoring code for readability, reusability, and performance optimization.

PROJECTS

PocketFlow — Expense Manager & Receipt Scanner | Next.js 14 · TypeScript · github.com/ashhar666/pocketflow
Django REST · MySQL · Docker · Tailwind · Framer Motion · Shadcn/UI

- Architected a full-stack SaaS with a Next.js 14 + TypeScript frontend and Django REST API backend, fully Dockerized for seamless deployment on Vercel and Hugging Face Spaces.
- Built an interactive expense analytics dashboard with Recharts, Framer Motion micro-animations, and a premium dark design system using Shadcn/UI and Radix UI components.
- Implemented receipt scanning, budget tracking, session-based authentication (Axios + JS-Cookie), and a secure admin portal for user management and analytics.

Personal Portfolio & Web Apps | Django · JavaScript · MySQL · Bootstrap · Vercel ashharshahan.vercel.app

- Designed and deployed a personal portfolio website on Vercel showcasing projects, skills, and experience with a clean, responsive UI.
- Built full-stack CRUD applications with user authentication, dynamic data rendering, and RESTful API endpoints using Django and MySQL.

Job Finder | Python · HTML · CSS

- Built a job listing web application with a Python backend handling data processing and routing, and a clean HTML/CSS frontend for browsing and filtering job postings.
- Implemented search and filter functionality allowing users to find relevant jobs based on role, location, and category.

EDUCATION

Bachelor of Computer Applications (BCA) | Baithul Izza Arts & Science College | June 2022 – May 2025 University of Calicut

HSC – Commerce & Computer Application | Chakkalakkal Higher Secondary School, Kozhikode June 2020 – March 2022

- Studied Business Studies, Accounting, and Computer Application — built strong analytical thinking and logical reasoning foundations.
